

**ADA Compliant**

# Tahoe Bear Box Co.

*SERVING NORTH AMERICA*

## Bear-Proof

The CE Series enclosures are equipped with easy to load chutes that are user friendly and ADA compliant. The recycling enclosures are available with 5" tubes for loading bottles and cans or the traditional pull-down loading chute. The aesthetic design compliments natural areas and allows placement in high profile locations such as:

- Parks
- Golf courses
- Campgrounds
- Rest Areas
- Highways
- Resorts
- Schools
- Playgrounds
- Ski Lodges
- Playgrounds
- Recreation areas
- Airports
- Zoos

Both models use a bear-proof latching mechanism on the service doors which can be located in the front or the back of the enclosure. Please specify service door preference upon ordering.

### Benefits

- Holds standard 32-gallon trash cans
- Front service door for easy unloading
- Built-in leveling system
- Equally suited for trash or recycling
- Compliments high profile areas
- Available with a standard pocket latch or optional handle latch
