

ADA Compliant H/A Series Refuse & Recycling

Model H/A® refuse & recycling receptacles are high-quality steel containers designed for use in a wide range of outdoor and urban settings. The rugged construction and rust resistant components ensure years of trouble-free performance.

The stylish design allows placement next to visitor centers, downtown city streets, or any location where aesthetics are critical. Built with uncompromising craftsmanship that meets ADA Guidelines. Available with optional recycled plastic wood siding.

- 30-Gallon Plastic Insert
- Front Service Door
- Easy Unloading
- Bear-Proof Latch
- Recycling Configurations Available

Solutions For All Applications

Model HA-P

Model HA-PY

Hid-A-Bag® Mini II (Model HB2G-UP) receptacles with accessible door for persons with disabilities was developed in response to requests from the U.S. Forest Service.

Light weight, barrier free user lids are side hinged for easy one handed operation by wheelchair users and other individuals with disabilities. The tilt-out bag rack facilitates easy unloading.
