- Equally suited for trash And recycling

The new 32, 68 and 95 gallon refuse carts from BearSaver have finally arrived! As the largest supplier of bear-resistant enclosures in North America, we have taken the next step to address residential bear issues using our years of experience dealing with large hungry animals.

Our Latching system is easy to use and will provide years of dependable service. Designed specifically for manual and semi-automated collection systems, these carts will keep your refuse safe and secure in any environment. With our unique push to close latching system, a feature found on all BearSaver products, we don't leave it up to the homeowner to remember to re-latch the container.
