Classy, highly aesthetic and very durable, the RSO Litter Receptacles were designed with function and safety in mind. The unique side opening design reduces the risk of costly back injuries, providing safe and easy access without the need to lift the inside liner over the top of the unit. In service for many years in places like San Jose and Albuquerque, the RSO Litter Receptacles are built to last. Using corrosion resistant materials and finished with a high quality powder coat, these receptacles will stay looking great in any environment.

Available with painted or stainless steel tops.

32 gallon liner is included.

24" diameter x 44" high. 150 lbs.
